

TM50 Touch

intuitive, secure, complete system control

P ▲ R ▲ D O X™

WHAT IF YOU COULD...

See the real-time status of your entire security system – in just one glance?

Spot if a specific alarm on your property was triggered – in seconds?

Perform maintenance checks of the system – all by yourself?

Use the same touchscreen that controls security to manage lighting, sprinklers, and other functions?

THE NEXT GENERATION IN SYSTEM CONTROL IS HERE.

TM50 TOUCH INTUITIVE TOUCHSCREEN

TM50 Touch integrates security and home control capabilities to help you manage and control the complexities of modern living – all from a 5" touch screen. One touch gives you a whole range of features and information on your entire security system; from which alarm was triggered in which room, to the real-time status of every area and zone in your installation, to any possible activity in your system. A touch of a fingertip also allows you to control your exterior lights, garage door, appliances, and more.

Finally, security meets control with TM50 Touch. Homeowners can experience peace of mind knowing that their families and homes are safe. Business owners can feel confident that with TM50 Touch's ability to integrate diverse systems; it takes just one central control unit to deliver both security and property control benefits.

GO AHEAD, TOUCH IT!

INTUITIVE INTERFACE: SECURITY IS AS EASY AS 123

No need for a manual now! Whether arming or disarming your system, bypassing a zone, or opening the garage door, the TM50 Touch's icon-driven menus guide you every step of the way. The user-centric TM50 Touch allows you to control your Paradox system's functions through its intuitive touchscreen interface. Furthermore, it makes installing and using your security system easier than ever with these following useful features:

- icon-based menus
- bright color display
- external SD media card slot w/cover
- customizable labels

- ultra-fast response time when scrolling through pages
- clear and precise menu prompts
- one zone/temperature input

- customizable translation
- lifestyle function support
- home control integration

SPOT ON LOCATOR™:

SPOT THE TRIGGERED ALARM QUICKLY!

Eliminate the need to match LED display lights with doors, windows, and other access areas. This feature allows you to upload up to 32 photos, images or schematics of a home or business. More than just customizing the system in a way that they never did before, the images displayed on the touchscreen provide graphic verification of any motion detector that has been triggered or activated by an intruder or of other events like fire or supervision loss.

The SpotOn Locator feature is integrated in the original firmware. When purchased, you can unlock it with an authorization code.

ONSCREEN MONITORING™:

REAL-TIME STATUS OF THE ENTIRE SYSTEM - AT A GLANCE!

Do you have a large commercial or residential installation? How can you possibly check every partition in every zone quickly and efficiently? The unique OneScreen Monitoring capability provides a live visual display of up to 192 zones. In one glance, the TM50 Touch turns into its own monitoring device. You can see the real-time status of the entire system: armed, disarmed, stay, ready, trouble, tampered and more. You can zero in on every partition and zone and see which detectors are open, closed, or bypassed.

The OneScreen Monitoring feature is integrated in the original firmware. When purchased, you can unlock it with an authorization code.

SOLO TEST™.

TEST YOUR SECURITY SYSTEM ON THE TOUCHSCREEN!

OneScreen Monitoring also includes Solo Test mode. This money-saving feature allows installers and users to easily test all system zones themselves via the TM50 Touch's screen. No time wasted. No repairman needed. Regular maintenance checks are a breeze!

MANAAGE

YOUR ENVIRONMENT

AND COMPLEMENT

YOUR LIFESTYLE

With TM50 Touch, the systems you use to protect your property are integrated into your environment to enhance your life. The TM50 Touch's many helpful lifestyle features –including slideshows, an alarm clock, indoor/outdoor temperature display, access monitoring and home control integration – are bundled into a sleek design featuring a 5.0 inch (12.7 cm) color display that complements any decor, whether residential or Commercial. Choose yours in classic Piano Black or Pristine White, or select from designer colors including Crimson Red, Apple Green, Vivid Violet, and Royal Blue.
